

BERKHOF JONGEKHEERE GROEP

In motion - - - - -

At full power...

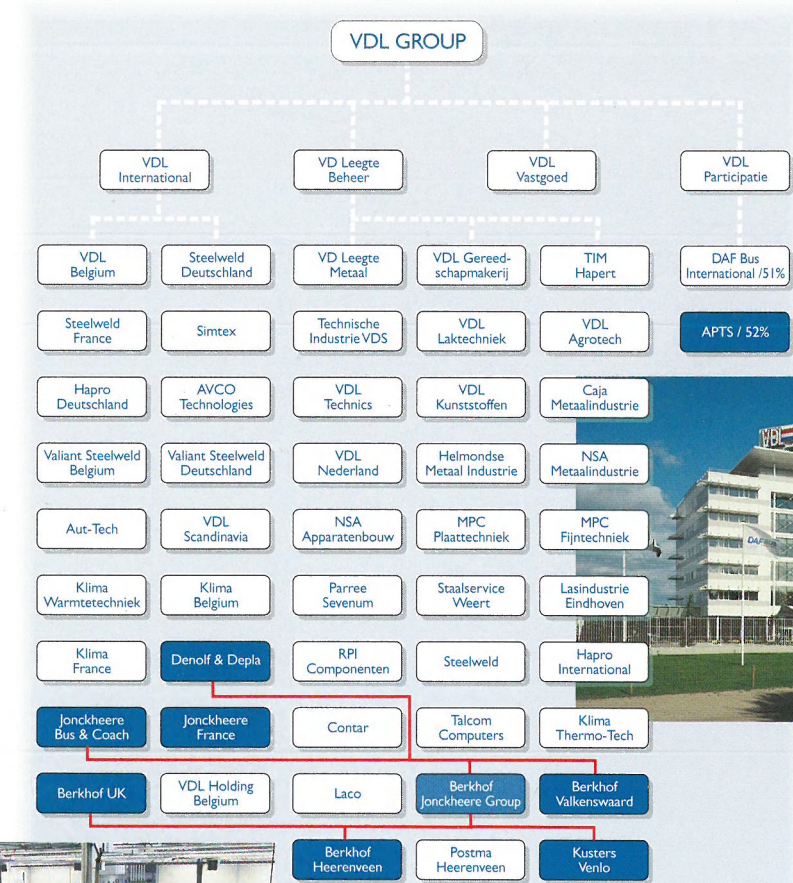

Five companies with a rich history drawn by a full-blooded innovator!

Five distinguished bus constructors came together within the strong and innovative VDL Group. They amalgamated their forces and now they construct each year about 1700 buses and coaches in different sizes and for various purposes, employing approximately 1200 experienced and highly qualified professionals.

High technology in production automation.

The VDL Group's contribution to the activities of the Berkhof Jonckheere Group

Since The bus constructors Berkhof Valkenswaard, Berkhof Heerenveen, Denolf & Depla, Jonckheere Bus & Coach and Carrosserie Kusters Venlo have been members of the VDL Group, their activities have been well co-ordinated and streamlined.

The members of the Berkhof Jonckheere Group make good use of their mutual synergy. At the same time VDL's specific experience in and knowledge of production and quality control techniques in the automotive industry are effectively put into practice.

Production of minibuses and damage repair work

Production capacity 300 buses per year

At full capacity...

With all its facilities the Berkhof Jonckheere Group continues to develop high quality products for passenger transport

One of the new developments in the field of high-quality passenger transport is the so-called "tram-bus" in which the Berkhof Jonckheere Group has a large share together with APTS. This "tram on tires", named Phileas Plus, will be operational in 2003 in the "VDL-city" of Eindhoven. By participating in this remarkable project the Berkhof Jonckheere Group re-affirms its good reputation in public transport all over the world.

At full capacity the Berkhof Jonckheere Group constructs buses for public transport, luxury coaches and minibuses. All companies make use of the group's capacity wherever necessary.

Also in the development of coaches the Berkhof Jonckheere Group does it your way!

The capacity of a big concern and the flexibility of a medium-sized company

Wherever they can operate independently, the individual companies will, in order to present to you - in line with VDL's philosophy - all the benefits of a company with human interest backed up with the qualities and continuity of a big concern.
