

**Yutong built 41.000 buses in total last year.**

**Yutong has invested 250 m EUROS in a new energy factory this year, and the factory will be ready in one year. The new energy factory capacity is 10.000 buses/year**

(of course not only for new-energy buses).

### **Eight Yutong coaches in Iceland**

Today there are eight Yutong coaches in Iceland. The first coach arrived three years ago, while five more new Yutong vehicles will arrive in Iceland in 2012, making a total of thirteen. Icelanders are obviously satisfied Yutong customers.

### **The first order to Norway has been signed.**

Yutong Eurobus has signed an agreement for the first buses to Norway: a 12 m low-entry city bus, a 12 m coach, and a new version of a 12.2 m intercity bus.

The first buses will be delivered to Tide Buss, a leading company in Norway which currently runs more than 1.200 buses in Norway as well as some in Denmark.

### **The first order to the Faroe Islands/ Denmark**

HK Bussar in the Faroe Islands has ordered one 12 m coach. The coach will be delivered to the Faroe Islands late 2012 or early 2013 and will be used for tourism, not only in the Faroe Islands but also in Denmark and other EU countries.

### **About Yutong Eurobus**

Yutong Eurobus now has offices in Iceland, Norway, Sweden and the Faroe Islands. In 2012, an office will be opened in Denmark and another will be set up in the German city of Kiel, where the central stock for spare parts will be located.

Yutong clients include companies from all over Europe as well as from other countries. Step by step, Yutong Eurobus is growing all the time.
