

Scania OmniExpress 3.20

Inspired by individuality

Scania OmniExpress combines commuter practicality with the passenger comfort and capacity of a coach. It's the perfect choice for regular service over shorter distances, where you still want high passenger flow. Interior options include luggage racks, individual lighting, reclining seats, AC, middle or back door, toilet, pantry and more. On the environmental front, you have full flexibility to choose the engine and fuel that best meets the operational needs of your market: conventional diesel, biodiesel or ethanol.
