

The Travego M

The ease of travel

Mercedes-Benz

So inviting.

The Travego M makes your travel business especially easy. That's because it provides you with the exclusive Travego M travel comfort over a length of 12.82 metres on three axles, and thus an especially high weight capacity for your passengers and their luggage.

So resilient, so agile

Ideal for high loads: Thanks to its three axles, the Travego M provides you with adequate space; even for journeys with heavy luggage, for example for outings to ski resorts or long-haul journeys. The Travego M has adequate reserves where weight is concerned. Even so, it is surprisingly agile. Thanks to the steered rear axle, your driver can rely on the excellent handling qualities of the three axles and easily master even the tightest hairpin bends. See for your-

self: The Travego M is a real professional traveller!

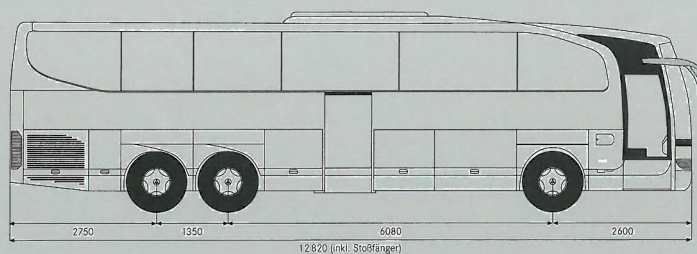

So spacious

Inside, the Travego M only differs from its 78 centimetre shorter 'brother' through four additional seats. In the 3-star version it is equipped with 53 seats. As a 4-star bus it has 48 seats. The luggage bay is very spacious with up to 9.6 m³.

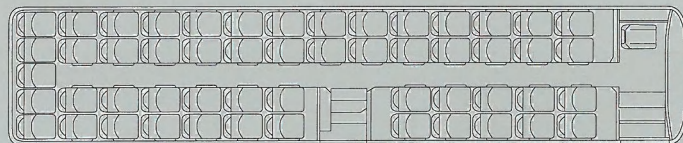

So comfortable, so wide-ranging

Inside, the Travego M is as

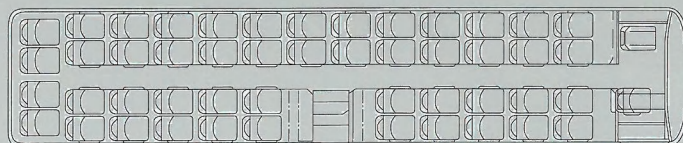

comfortable and wide-ranging as you would expect from a first-class touring bus. It offers your passengers exclusive comfort with all the possible fittings that you have come to expect from the other Travego models. For motorization, there is a range of outstanding Mercedes-Benz quality engines. The Travego M is available with a variety of different engines that already provide the Travego L with high performance. Make it easy on yourself: Travego M.

Economical: In the 3-star variant, 53 passengers can make themselves really comfortable in the Travego M.

Sophisticated: As a 4-star bus, the Travego M pampers up to 48 passengers with a high level of ride comfort.

Luxury on request: The extensive range of optional equipment gives you a free rein where the interior equipment is concerned.

The Travego M in figures.
